

Smart® Co-mmitment = Smart® Co-mmunity

R029-bt-6 hrs.

Summary

Co means together. By committing 0.5% (5 tenths of 1%) of your time inside your Smart® group, you live 99.5% of your time outside of your Smart® group. Preparation ahead of each meeting is key. By saving another's time, you save your time. Sticking to our agenda time slots saves everyone's time. By attending every meeting you become a valuable member. There is a time slot at the end for open ended discussion.

Our Smart® Ambassadors of Community tend toward happiness or joy for themselves and build community in every group of which they are a part. If I do not commit to my Smart® group, there is a part of me that has not yet committed to seeing God in all those around me. Satan uses that wedge of doubt not committing to pry me loose from my Smart® group. Satan is a spirit diametrically opposed to our freedom to live our deepest beliefs in harmony with all mankind.

By resting in the spirit of God in total surrender, we invoke our [guardian angel](#) and all the heavenly hosts to fight our battle. Our ardor of heart, or great experiential love, for all around us will grow. We do our best and God will do the rest. God is more powerful than Satan. God always wins, but we must trust in God totally to do what is best for our temporal and eternal good.

To overcome blind passion still in our imperfect self, we must carefully discern the merits of missing even one Smart® group meeting before invoking the will. Because as soon as the will decides, the passion reinforces the will. Satan tempts us to leave. This temptation happens in every Smart® group. We thwart Satan in our Smart® group by taking the decision, to attend or not, off the table. It's a lot easier to just commit for life.

Don't give Satan a chance. Think of the idea of committing for life merely as doing the next right thing for

now. Satan uses his grandest lie in our weakest moment to thrust us apart in our Smart® group. Satan's grandest lie is that God just about does not have it right to be able to see God in each member of this our Smart® group. Removing all possibility of doubt, removes Satan's purchase.

Something remarkable would happen in our Smart® group that stays together for life. By [committing](#) 0.5% (5 tenths of 1%) of our time inside our Smart® group, we live 99.5% of our time outside of our Smart® group experiencing ardor of heart in the 4 pillars of happiness which are family, friends, work, and faith. Jeff says: "Until I can say 'Yes' to all of the questions below, which I can't, I wouldn't want to leave?" Can you say "Yes" to all these questions?

Do you know the best way to learn something?

You teach it.

Do you know the best way to teach something? The best way you teach something is by sharing a relevant resolution story.

Do you know how to lead the life you want to lead? To lead the life you want to lead, be committed to your Smart® group. Self-correct to check out if you have satisfied your innate needs and permitted satisfaction of the innate needs of others. All else flows logically from there.

Do you know what sells people? Confidence in your science based premise sells people. That is what science means.

Do you know what creates a safe sharing environment after 50 years of experience? What are you willing to die for? That alone is what creates a safe sharing environment. Freedom to live your deepest beliefs in harmony with all is the ultimate goal of the Smart® group .You accomplish this by acquiring Smart® habits that satisfy innate needs. These are the primary values scientifically proven to work

for you and everyone else to satisfy innate needs. Founders are those who discover this truth in Smart® Natural Law. We call founders Smart® Ambassadors of Community. Their hard work as servant leaders facilitating genuine Smart® groups brings happiness or joy to themselves, and increased sense of community in every group of which they are a part. They must be willing to die for “That which they value the most.” God’s abundance flows through to us in Miracles First Hand. Then instead of death comes life eternal.

In this way peace will come to earth. There will be two camps on earth. Those who are coming to God and those who are not yet coming to God.

Because God is mystery we will never be God. We will always be coming to God. All we can do is all the things we know we must do, and to stop doing what we know we must not do, for the world to change for the better.

Then the meaning of our life will be operating in an area of meaningful expansion for our self, and our autonomy will flourish. We will decide a matter and light will shine upon our ways. Our hard work changing our self from ways that hurt and harm others to more loving ways by our suffering for them will permit our ardor of heart to see God in all and let all see God in us and we will have joy.

If those over us do not thwart our innate needs, by our hard work we will have happiness. Happiness is a direction not a destination. Therefore we are on a path to God.

The Loquate Experience is ardor of heart as we surrender to God for all that we possess. We become small and God becomes big. This is our safe, simple journey on earth. Through Loquate’s discovery of an overlay on everything, we can safely have the freedom to live our deepest beliefs in harmony with all.

For Christians Ephesians 4:[13](#) brings unity for all. Non-Christians must have the same freedom to live their deepest beliefs in harmony with all if they are to satisfy

innate needs. No religion is threatened by a genuine Smart® group. That alone is hope for survival in whatever you fear. Truth, justice, security and protection bring safe sharing environments to all those around us as Smart® Ambassadors of Community.

For if I want what is best for myself I must want it for you as well. But I can never give it to you against your free will. “A man convinced against his will is of the same opinion still.” The best I can do is to stay on the path for life in my genuine meta Smart® group. What then emanates forth from our domain is ardor of heart. Once the Smart® process is learned as Smart® habits you no longer think about it. Own the experience. Change the world by changing yourself.

Hard work, doubling down participation in your Smart® group moves you along the faith feedback loop. [The faith feedback loop](#) is another scientific discovery about faith itself. By adding a meta overlay of faith to all that we do, our faith grows until we reach a state of total dependence on God for all that we possess. Faith is like working out. Instead of our body we are working out our spiritual strength. Where are you now on the faith flow chart and how much have you already progressed since joining our Smart® group?

It is up to those who have earned the most credits in [domain theory](#) to carry on adding and modifying resources as needed. Until all on earth have decided to belong or not to at least one Loquate genuine Smart® group, our work as Smart® Ambassadors of Community will not yet be done. Let us then at the very least stay committed for life to our Smart® group for peace on earth to flourish and the rages of war, man’s ultimate folly, diminish. Amen.
