

Guardian Spirit

R033-ae

Of the many guardian spirits I have one Guardian Angel.

I pray to use my Guardian Angel more greatly. I should be firm, generous, and light hearted with my Guardian Angel.

Firm, so that when I make a decision, my Guardian Angel is clear that I enlist his help.

Generous, so that I use him often.

Light hearted, so I rest in the spirit of God always. As does my Guardian Angel. Resting in the Spirit of God is fun.

The role of my Guardian Angel is to protect me. He protects me from causing any soul to choose Satan alone from how I hurt them. My guardian angel has much help. Those around me change me.

I am so ashamed of my sins. I beg the Father by grace to keep me from sinning.

I am not to know Satan. All of his ways are evil. I am to know God. I am to go deeper into devotion to God.

I wish to communicate to every person on earth my Domain Theory essay. By my guardian angel communicating with your guardian angel, I wish you to stay in our Work Meets Faith small group. I wish to retain you, who have chosen to participate.

Each person on earth is free to choose, sin or evil, or charity or good. As they choose on earth so too do they choose at the moment of death. Angels protect good chosen freely. Angels cannot protect evil.

Satan is vicious. His domain is evil. He is the archangel of evil. He has many who serve him. Satan's dominion over those who serve him is complete. Those who know us seeking the domain of God is their saving grace.

How could God in charity choose a sinner?

Our Work Meets Faith small group explains that the one who suffers chooses the sinner. Domain Theory shows God is in charge through any put upon who suffer.

I give local meaning to suffering, just as Paul says and John Paul II says.

Humans are so frail, they have to be in community. Finding the best outcome in a God centered community is a requirement for humans to obtain truth.
