

# Backdoor to a Purer Form of Our Self

R044-at

The backdoor to a purer form of ourselves is Natural Law. In its purest state our operating system leads to God. Man has an operating system like a computer. We cannot see the world except thru our operating system. Still we be and become what we choose to be.

The main point is that our operating system may be purer. To make our research universal, the term God is used interchangeably with That which you value the most for the common good. By bouncing ourselves off the 12 steps of Loquate together in a Work Meets Faith small group we become a purer form of our self.

## Interfaith Dialogue

The Loquate 12 steps work for every person because Loquate follows principles of interfaith dialogue, and because the 12 steps rest on scientifically proven innate needs common to all mankind. The principles of Interfaith Dialogue were adopted by Loquate from those responsible for setting the principles.

## Executive Summary of Loquate's Principles of Interfaith Dialogue

- Interfaith dialogue is first and foremost an attitude that is acquired as the result of listening to various points of view and ultimately forming one's own view of other religions. An attitude could be defined as a manner of acting or thinking; a disposition, opinion or mental set.
- Interfaith dialogue consists essentially in hearing each other. Interfaith dialogue is living together in spite of our differences. Differences make sense when they are well understood. Be respectful of differences.
- Avoid proselytizing during interfaith dialogue. Be true to your beliefs. State your own beliefs when appropriate.

- But mainly listen well, which means hearing an entire message.
- Build unity. Be united in faith in God, for love of fellow man, for peace on earth, and for the greater glory of God.

## Technology

Science discovered innate needs common to all mankind. Primary values satisfy innate needs. By using technology we mean that Work Meets Faith small groups intentionally satisfy innate needs common to all mankind. Loquate's core strength is community.

- The Technology uses a Smart® process
  - self change, not changing another,
  - relevant resolution storytelling, not advice (no proselytizing),
  - satisfy innate psychological needs, put into us by our Creator, not ordinary conversation,
  - Corresponding scripture (or internet search) is shared.

Step 1 of the 12 steps begins with running a test on the validity of the primary values as related to our feelings that tell us whether we are on target or off target as a human being. Each subsequent step of the 12 steps follows logically, based on innate needs common to all mankind.

## 12 Step Apologetics

This is 12 step apologetics but there is an even greater force at work than logic. If we do not follow the 12 steps, if we do not learn from life, still life teaches us.

The book God's Will on Earth increases awareness. The Loquate 12 steps are like an accompanying workbook to screen our operating system to increase its purity.

God reaches us through a backdoor in our operating system. We all have an innate need for relatedness. We satisfy the innate need of

relatedness by doing that which is truly in the best interests of others. If we do that which is truly in the best interests of others, we will be...related to others. Our Creator wants us to know that the backdoor for our own love of others, reflects God's abundance of everlasting love for all mankind.

Our front door is scripture. We have a God who wants to be known and is knowable in our scripture. A Work Meets Faith small group uses scripture (or internet search) for the benefit of the focus person. We do not give advice. We trust each to find their own path to God during our meetings consistent with principles of interfaith dialogue.

## Implementation

The 12 steps are new evangelization of our selves. As we change our selves, we affect the groups of which we are a part. As we change, the systems of which we are a part also change. Our conversion changes sociological systems beginning with our families and going outward from there bringing "unity to all." We learn to satisfy our innate needs and to permit innate need satisfaction of all those around us. By creating one functional group in Christ as our mentor, we go outward and change the world by our example, bringing peace on earth.

- The first time thru the 12 steps we gain general comprehension by saying what each of the stick figures illustrated in the 12 steps infer to us.
- The second time thru is more of a discussion, to see how much each of the 12 steps have actually been integrated into our being.

## In Conclusion,

Loquate's small group program works organization wide or community wide in unity for all.

The sequence is this:

The small group seeks to follow the Smart® protocol of safe sharing.

Once followed the protocol becomes discipline.  
The discipline becomes ritual.  
The ritual becomes prayer.  
The small group (and the corporation) rise in prayer.  
The prayer becomes fragrant to the Lord.  
Freedom to live our deepest beliefs in harmony with all becomes the best place to live/work.  
The Lord sends the Holy Spirit. The Holy Spirit pleases the Father. We are to do the same.

By joining the small group you will add horizontal growth as a new member and vertical growth by going deeper into devotion in your own House of Worship.

- Seeing the Holy Spirit in Miracles, First Hand builds unity in God, Who is Father of all.
- Our protection against Satan's evil domain is our commitment to our small group for life.

## Work Meets Faith small group

Everyone works in some sense (volunteer, retired, stay at home, or for pay).

- **Low Time** Meets 2 hours/month, but not in July, August, or December.
- **High value** Does your faith influence your work? Have you ever wondered: 'Is this the work God wants me to do?' In our Work Meets Faith small group, we believe that God speaks to us thru our interiorly preferred work. By prayer, encouragement and community learn how you can use your faith to influence your work - and to overcome the challenges and obstacles that we all face in our jobs. Not with advice, but with helpful relevant resolution stories. In discovering your interiorly preferred work, your life will become more fulfilled so, in return, you can humbly and gratefully offer it as a gift back to God. Resulting in a deep faith to ask Him to bless you with more of that work. Fulfilling God's natural law of love, you will bring peace to the world.
