

Corporations Rise

R070-av

Loquate's vigor is unity for all -- in, through and by Natural Law -- not religious teaching.

Loquate's small group program offers **Scientific Momentum Activating Righteous Transformation** through Natural Law. The science states innate needs are satisfied by primary values. The innate needs of human kind may be the greatest discovery in Natural Law ever. Like sailors eating limes to prevent scurvy, Smart® habits overcome the scurvy of the human spirit which is diminished motivation and well-being. Interfaith small group members build community in every group of which they are a part, and individually tend toward happiness or joy.

Loquate is comprehensive in this sense. It integrates religious beliefs about Spirit-centered community in unity for all mankind as Biblically or Scripturally possible, nothing more.

Corporations rise with community.

- Environment and Social Governance (“ESG”) investing gives rise to building community.
- Community may be the most self-evident S factor.
- Turnkey outsourcing. Loquate certifies ambassadors of community through course completion and hands on learning in the Loquate small group program.
- Smart® habits maximize ESG social component.
- Incentivized volunteer feedback verifies top ESG social component scores.
- Loquate's Turnkey offers measurement and betterment of community.

Smart® Groups – operating on their own time as volunteers, offer bottoms up innate need satisfaction that builds community.

A bean pod sprouts into a beanstalk in a healthy lifecycle. But without water, sunlight, and soil nutrients outside of the bean pod, the pod can't create energy, and the sprout withers and dies.

Man witnesses beauty in the beanstalk and the hummingbird. But man alone has free will to choose, or not, the primary values that alone satisfy innate needs.

The Smart® group is a sign, a sign of love. Have you ever noticed in a chaotic manmade world comes order, precisely at a moment needed most?

Where does this come from? Not so much a sign that you and I agree to call this or that as much as the irrefutable fact that the sign comes. Let us not argue in word as much as the fact that the sign does come. And when it does come, acknowledge it as “not from ourselves.” It is intelligent. It does exist. Let us call it God, or Spirit, or That which you value the most for the common good. Let us use the words interchangeably. Because when we pray or meditate, we seek it. Chaos ends. Order resumes. Life has changed and we are astounded. That is Spirit.

Performance –Innate needs when satisfied yield enhanced self motivation and mental health and when thwarted lead to diminished motivation and well-being.

Gallup Studies show that high engagement leads to greater profitability.

Affirmation - is the key to sense of community. Affirmation means a two way street - you affirm your organization and your organization affirms you.

The greater the community within the corporation, the higher the ESG social score.

Smart® groups experience and grow sense of community. Once the process is understood, members apply the scientific principles to every small group of which they are a part. In this way they grow “in unity for all.”

Connecting the human spirit, through stories!

Shared experience, not advice, creates awareness. Members tend toward happiness or joy. Their identity experience at work tends toward a sense of community.

Proven Successful!

In one Smart® group, feedback scores over a 4 year period averaged 96% (A+).

*Open to all – No one is excluded.
Everyone is included.*
