

## How Miracle Witness Began at Loquate.tv

The problems that brought our world economy to near collapse in 2008 are in part exploitation and greed that may have begun in America on Wall Street and spread thru globalization. Our hope is to establish a counter movement. A Seminar Series was born in America. Presenters are at the cutting edge of making faith relevant today. The answer to overcome exploitation and greed lies in the Holy Spirit indwelling in each person, who lives out charity in truth in their own area of meaningful expansion for themselves, their interiorly preferred work.

Every person has a gift or talent innately planted in their heart and mind. A charism begins with grace bestowed upon us in cooperation with our gift or talent. Unlike a gift or talent used solely to benefit one's self, a charism is always outwardly directed for the good of the community.

Can you think of a gift or talent that you have? Think of the first time you were aware of your gift. Think how your gift grew in your life. Think how you apply your gift today.

Here is an example. A presenter in the Seminar told us an inspiring story, marketing for a life care facility. A lady prospect bought our presenter a special pair of earrings because the lady was so deeply affected by our speaker. Gifts are not allowed to be taken by staff; yet the presenter accepted the earrings because the lady was so tender.

The lady was tender because her husband had recently died. Before he died, it was understood that her divorced son and 2 children would take over her house and she and her husband would move to a life care facility. More than anything else the presenter wanted the lady to be comfortable in her new home at the life care facility and not feel pressure to make a poor decision. The presenter responded so meaningfully with balance and comfort that the lady gave her the earrings as a special gift, and our presenter took it.

Beautiful! No exploitation, no greed, even if the lady had chosen other than her life care facility, the presenter sought what was best for the lady, charity in truth, and the lady knew that. Charity in doing

what needed to be done without the presenter's self interest. Truth in the presenter's years of experience as a life care facility representative. So our presenter's understanding and compassion were symbolically tied to the gift of earrings. Her story was inspiring and practical.

The idea here is paradox. Sometimes we are called to take a different path than the conventional one. In paradox, God's love is known unfettered. It is like an inexplicable breakthrough. God may be seen in the paradox born of our love with no bounds.

Our goal with the Seminar Series was to create space around this preciousness of God at work in our lives. This preciousness was embodied in the gift of earrings which could not be refused. A positive life inspired by God is a timelessly beautiful thing to see and when two people have it in a commercial exchange, sustainable abundance is created.

Pope Benedict XVI said in an encyclical called Caritas in Veritate: "All people feel the interior impulse to love authentically: love and truth never abandon them completely, because these are the vocation planted by God in the heart and mind of every human person. There is a need for the deep thought and reflection of wise men in search of a new humanism which will enable modern man to find himself anew." The paradox is that when we create space around this preciousness we find our self anew. It is like falling off a cliff into our new self.

The stories may increase connections among all of us that will bring us closer together increasing our sense of community. Tips from experts in their respective fields made the series practical. And thru its videos, Loquate hoped to publish these inspiring, practical stories of preciousness.
