Prime Minister Modi of India said to Putin "Now is not the time for war."

As Russia annexes territory in Ukraine, according to CNBC on 9/25/22: "Former Russian President Dmitry Medvedev said Russia has the right to use nuclear weapons if Moscow deems it necessary, and if it deems its territory is under threat from conventional weapons."

Putin's collapse is likely, for world economic sanctions will crush Russia, and a regime change away from Putin may occur in time.

I am on my point of land at Bond Lake. I feel Your peace. The rainbow warriors begin their work earnestly now. The rainbow warriors are those children and young people of today who will save the world. By learning in Natural Law old ways of indigenous peoples they will save the earth. For this I pray.

The rainbow warrior prophecy is fulfilled in domain theory. Ambassadors of community embrace Natural Law. Ambassadors of community include Rainbow Warriors. Amen.

My Smart® group meeting last night was indescribably good. Domain Theory - is a hit. I walk my point of land on Bond Lake in Your peace. Jose Vizcarrondo's prophecy is fulfilled as I walk. Jose described his prophetic vision of a war party on a thousand horses thundering thru my home and point of land. Their sachems at the head of the war party were like two horns on a bull. They counted coup right and left. But every person struck, their coup sticks brought a coup of peace. The war party of peace has arrived.

Our white pines numbering about 80 that we planted over 20 years ago are doing well. The white pine is a sign of peace. I need to trim other species back that the white pine might flourish in the sun. The standing dead trees are home to many.

As a child I used to notice waves on the lake and read sign. So too now. The calm lake with a little ripple is so telling and beautiful. Everyone says so. As a little boy I walked this very point path I am now on. Father God, You knew then. Your mystery is eternal. So wondrous. So beautiful. In Nature. Your first home. I just [called in](#) 5 crows. They flew over my head. The maple leaves are turning color. The kingbird is calling. The squirrel is scolding. The weather is crisp, clear and sunny. I know now. Your abundance is never ending.

[Domain Theory](#)

Think of a domain as what emanates forth from a person, what the person is or was all about, and their fruits. Domain Theory uniquely relies only on changing oneself, and can be replicated elsewhere to build community. A functional domain for good always begins with an individual who supports innate needs. Spiritual combat is a fight for dominance of domains. If our goal is to make our domains functional, God always wins. Surrender to God is essential. Domain Theory intimately unveils God to us.
