Summary: **Loquate** is a ripple organization that touches others in ripples of fun through intentional community. We are all on one and the same path to happiness consciously or subconsciously because it is a return to a memory of wholeness. Sense of community is proof positive that innate needs are being satisfied. Its kindness is fun natural law.

A "memory of wholeness" is the profound sense that our deepest nature is already complete, integrated, and unbroken. We all have experienced the memory of wholeness. If you doubt this, go back inside yourself and think of something no one could ever take away from you or could ever convince you was not good for yourself. What others think is irrelevant. This is subjective.

Now reflect on that experience. Does it sound anything like this? The Lord is with me. Honesty manifests itself in my communication with others. It is as though the communication were a natural physical process containing all the moods of the ocean, and a total absence of fear that what I am doing is wrong. It is spontaneous and deep, creative and engrossing. The direction of honesty is to bring me closer to others, and closer to myself, by changing only myself and no one else.

The Science of Happiness

Science enters when we identify instrumental means to happiness. [Innate needs](#) when satisfied by corresponding primary values lead to enhanced self-motivation and mental health and when thwarted lead to diminished motivation and wellbeing. At a minimum, reinforcement is needed 9x per year for 2 hours in a Smart® group to build Smart®

habits. A syllabus of fun courses with credits like "2 hrs" is offered to bring clarity to our memory of wholeness. Smart® Ambassadors of Community earn credits like a trade school.

Hands-on Learning

Repetition of our Smart® process to satisfy innate needs leads to a memory of wholeness. Earn your Smart® Certificate as a Smart® Ambassador of Community. Its kindness is natural and fun.

Smart® habits include an interdependence based on spirit-centered community. By Spirit we mean a caring presence that exists outside of ourselves. The opposite is ethnocentrism believing your culture is best for everyone. Uniquely, this subscribed personal culture changes small groups' social systems thru self change not changing others.

Smart® habits lead to happiness or joy for Smart® group members and increased sense of community in every group of which they are a part.

Build a safe, simple life.

- Build wellbeing naturally using [Smart® Natural Law](#).
- Universally applicable wherever you go.
- Science based.
- Since inception in 2016 scientific feedback shows a 98% success rate toward happiness, joy, and peace. It is fun. The proof lies in its Spirit-centered sense of community.

A return to the memory of wholeness is very centering.

A caring presence outside of ourself leads us to wholeness. Our memory of wholeness is experiential. Spirit-centered sense of community is proof positive that innate needs are being satisfied.
